

Braemar Gallery

Public Sculpture Garden

Information for applicants

Introduction

Blue Mountains City Council's Cultural Development department coordinates Braemar House. Braemar House is part of the Blue Mountains Theatre and Community Hub precinct. It is home to Braemar Gallery. Opened in 1988, Braemar Gallery is a community gallery, hosting changing exhibitions that showcase works of artists within the Blue Mountains local government area. The gallery presents an annual program of exhibitions from local artists selected by the volunteer Braemar House Reference Group. Exhibitions are then coordinated by the Exhibitions Team and Marketing Coordinator. A Blue Mountains City Council Cultural Development Coordinator offers administrative.

Public Sculpture Garden Opportunity

Braemar Gallery is proud to program the Public Sculpture Program and invites emerging, established, and / or professional sculptors to exhibit their work on the two sculpture pads on the lawns of Braemar House as part of the Public Sculpture Garden. Exhibition is through an application and assessment process. Selected artists are not required to pay any fees to exhibit in Public Sculpture Garden.

Please note that Blue Mountains City Council does not insure artworks. Insurance is the responsibility of the exhibiting artist/s and all works will be displayed at their own risk. Artists are to work with the Exhibition Team when installing and de-installing sculpture/s.

How to apply

Please refer to application form for further details.

Plinth Information

- Pre-fabricated Concrete Blocks: x 2
- Dimensions: 1m x 1 m x 15cm (LWH)
- Hilti Anchor Channel HAC50F

Side View

Top view

ReoBar/Mesh = N16

The Anchor Channel System allows for a threaded T-Shaped Bolt to be placed in the channel and then an artwork can be bolted down to it. The artists should consider how the artwork will be bolted down before making the artwork, taking into account the dimensions of the distance between the two anchor channels. The T-head bolt is available in M10-M20 size as per below.

HBC-C T-head bolt

Versions available:

Thread sizes M10-M20

Electrogalvanised 8.8 (8 µm)

Hot-dip galvanised 8.8 (45 µm)

Stainless steel A4-

Further technical information about the anchoring channel and T-shape bolts can be found here: www.hilti.com.au/content/hilti/A2/AU/en/engineering/design-center/anchor-systems/typical-applications/cast-in-anchor-channels.html
